

Business Plan for Coffee Export

Trade

Oct 2024

Addis Ababa, Ethiopia

Prepared by: Dereje .Seyoum

1. Executive Summary

Foreign trade has been considered as an engine of economic growth of the country. Different studies have depicted various insights towards the historical relevance of international trade , particularly for developing countries' economies.

Ethiopia is one of developing countries engaged in exporting various agricultural products to different countries of the world, such as coffee, Oilseeds, sesame, pulses and others. Among such organic seeds coffee takes the first place.

Currently, the consumption of coffee in the world is growing very fast. Which means that there is growing demand for quality and organic varieties of seeds. USA, eUROPEANS, China, middle-easts are some of the largest importers and processors of the products.

This is the business plan of Mixed Business Group. The core business of the company is to import pharmaceutical products from different countries. And now the company planned to expand the business by engaging in exporting coffee beans.

Any financial leverage will help the company to exploit and boost its potential market to its full scale in both of its businesses. with a long term plan of exporting roasted coffee. So, financial leverage is very decisive for its operation and success.

2. INTRODUCTION

2.1. Background of the Company

Founded in 2020, Mixed pharmaceuticals is a dynamic and innovative company based in Ethiopia, primarily engaged in the importation of high-quality pharmaceuticals. Our core mission has been to contribute to the well-being of the Ethiopian population by providing access to a diverse range of essential medicines and healthcare products sourced from reputable manufacturers around the world. Over the years, we have established strong partnerships with international pharmaceutical companies, ensuring that the products we import meet the highest global standards for quality, safety, and efficacy.

Our extensive experience in navigating complex regulatory environments, coupled with a deep understanding of Ethiopia's importation logistics and compliance requirements, has positioned us as a trusted name in the pharmaceutical industry. Mixed pharmaceuticals has built a strong distribution network, delivering critical healthcare solutions to hospitals, clinics, pharmacies, and

healthcare providers across the country.

Recognizing the potential of Ethiopia's rich natural resources and its reputation for producing some of the finest coffee in the world, Our company is now strategically expanding its operations into the coffee export sector. Leveraging our expertise in international trade, compliance, and logistics, we are poised to enter the global coffee market with the same commitment to quality and excellence that has defined our success in the pharmaceutical industry.

As we venture into exporting premium Ethiopian coffee beans, we aim to highlight Ethiopia's unique coffee heritage and contribute to the country's economic development by tapping into the growing global demand for sustainably sourced, high-quality coffee. Our vision is to establish ourselves as a key player in the global coffee export market, fostering long-term relationships with international buyers and promoting Ethiopia's coffee on the world stage

2.2. *VISION*

To become Ethiopia's leading import and export company by consistently delivering exceptional customer satisfaction, superior quality products, and professional services that set new industry standards.

2.3. *MISSION*

Our mission is to meet the global demand for Ethiopia's finest coffee products by providing premium quality and quantity. We are committed to building robust infrastructure that supports and enhances the export process, ensuring our products reach the world with excellence.

2.4. *VALUES*

- ❖ **Customer Focus:** We prioritize our customers' needs, ensuring their satisfaction through exceptional service and high-quality products.
- ❖ **Integrity:** We operate with honesty and transparency in all our business dealings.
- ❖ **Quality and Safety:** We are committed to maintaining the highest standards of product quality and safety at every stage.
- ❖ **Employee-Oriented:** We value our employees, fostering a supportive and empowering work environment.
- ❖ **Respect:** We treat all stakeholders—customers, employees, and partners—with dignity

and respect.

- ❖ **Teamwork:** We believe in the power of collaboration and collective effort to achieve our goals.
- ❖ **Continuous Improvement:** We strive for innovation and efficiency, always seeking ways to improve our processes and services.
- ❖ **Social Responsibility:** We are dedicated to contributing positively to society by engaging in sustainable and responsible business practices.

2.5. Keys to Success

The keys to success are:

1. Provide better prices than all our competitors.
2. To maximize profitability, proximity to suppliers is crucial. Being strategically located near the Ethiopian Commodity Exchange (ECX) allows us to source top-quality products more efficiently, ensuring faster access to premium goods. This proximity, combined with our commitment to delivering high-quality products, enables us to meet and exceed customer expectations, encouraging loyalty and word-of-mouth promotion of our services.
3. We prioritize maintaining close, long-term relationships with our clients, which helps us generate repeat business and build a strong reputation for reliability.
4. Given the importance of foreign exchange for our import activities, we are committed to offering competitive pricing on exports, enabling us to generate sufficient foreign currency for reinvestment into our import operations.
5. By providing better prices and superior service compared to our competitors, we aim to remain a trusted partner for both our domestic and international clients, ensuring long-term success in both import and export ventures.

EXPORT DESTINATIONS

Our company Import Export will export high quality Coffee to the world market, mainly to UAE,

China, Europe, USA, Saudi Arabia, Korea, Japan and India.

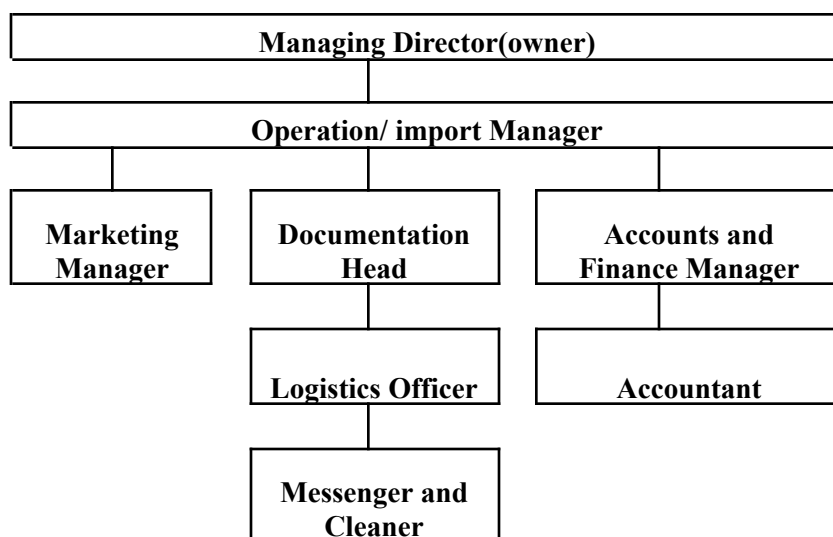

Company Ownership and Management profile

the business is a private limited company owned by Mr. Dereje Seyoum, an accomplished entrepreneur with extensive experience across various trade sectors. As a young and highly skilled business leader, Mr. Derje Seyoum is recognized for his deep expertise in both domestic and international trade. His exceptional interpersonal skills and strong reputation within the community further enhance his leadership.

Under his guidance, the company has rapidly achieved significant success, leveraging his vast knowledge and industry insights to navigate the complexities of the trade business. His ability to foster relationships and make strategic decisions has been instrumental in the company's growth and success in a short period of time.

2.5.1. Organizational Chart

the company has well organized organizational structure to develop a system that outlines how certain activities are directed in order to achieve the goals of the company. These activities can include rules, roles, and responsibilities. Our organizational structure also determines how information flows between levels within the company.

2.6. SWOT ANALYSIS

Our company will engage in the Business of a core professional in the area of Export business. It is known that if we get things right the company will not have to struggle before attracting loyal clients and building our customer to a level where we can breakeven. Here is a preview of the result we got from the SWOT analysis that was conducted on behalf of our organization.

Strength:

We planned to work with various promoter in other countries. The promoter has a team of creative, result driven and highly proficient. The promoter's (GM & Owner of the company) has an immense experience in the variety of business. On top of that, the owner has got a huge connection from the international market and is currently closely working with different international companies. The owner also has good relationship with local business persons, financial institution and international buyers;

Weakness:

Shortage of funds to purchase bulk volume of coffee and other exportable commodities: and Lack of own farm and cleaning and processing machine and facilities.

Opportunities:

The opportunity available for export business in Ethiopia is massive; The growing demand of Ethiopian products by Europe, Asia and America; The current government policy of the country, which encourages domestic exporters; Can easily collect purchase contracts from different buyers for products listed in this business plan; Sustainable economic growth and political stability of the country; Adequate supply of oilseeds and pulses in the local market; Adequate supply of credit facilities by banks; The availability of cheap labor force in the country;

Threat:

The regulation set by the government about usage of foreign currency is not to use the whole capacity of currency for import purposes. Just like any other business, one of the major threats that we are likely going to face is an economic downturn. Another threat that may likely confront us is the flourishing export organizations in the country and competition to purchase the Goods in Ethiopian Commodity exchange (ECX) and from wholesalers by vertical integration.

3. Market Strategies

3.1. Target Groups

As a Company we planned to export coffee to UAE, China, Europe, USA, Saudi Arabia, Korea, Japan and India.

3.2. Product and Competition

The Company has planned to focus on Coffee and for the future plan to purchase all the products from the ECX, from wholesalers Vertically and other markets by participating in bids and the promoter is planning to have a farm in different parts of the country.

3.3. Location

The business is located in Addis Ababa Ethiopia,

3.4 Price

The central market (ECX) is the one that regulates the prices of the mandated products through auction or bid. Taking into account this opportunity, our company has planned to offer the best and competitive price by maintaining its profit margin.

4. Sales Strategy
